WHAT ARE PORCELAIN VENEERS?

Porcelain veneers are one of the most versatile cosmetic dental procedures because it fixes multiple cosmetic dental concerns at once.

A Porcelain Veneer is a thin porcelain shell that is permanently bonded to your natural tooth. Veneers are placed on the front surface of your tooth to enhance the cosmetic appearance of your smile. Veneers are strong and durable making them a popular aesthetic dental treatment for smile makeovers. Veneers can transform an average smile into a straight, white, beautiful smile.

AM I A CANDIDATE?

YOU'RE A CANDIDATE FOR PORCELAIN VENEERS IF YOU HAVE ONE OR MORE OF THE FOLLOWING:

Veneers are commonly used to correct:

- Discoloured and stained teeth
- Genetically stained teeth with yellow, or white spots/ patches permanently present on the enamel
- Mismatched or irregularly shaped teeth
- Mild crowding in your front teeth or gaps
- Heavily filled front teeth that appear patchy and uneven in tone
- Teeth that have undergone trauma and have chipped or discoloured as a result
- Crooked or misaligned teeth

BENEFITS OF PORCELAIN VENEERS

HEALTH BENEFITS:

- Protect the teeth
- Fix chipped and worn down teeth
- Make brushing and flossing easier, as straight teeth are easier to care for than crooked teeth
- Improve function with smooth alignment to your bite

BENEFITS OF PORCELAIN VENEERS

COSMETIC BENEFITS:

- Whiten and brighten the smile
- Fix crooked teeth and an alternative to braces or Invisalign
- Fix large gaps between the teeth
- Fix a gummy smile
- Improves the shape and size of the teeth

TYPES OF PORCELAIN VENEERS

Not all porcelain veneers are made equal. There are certainly differences in quality in porcelain from clinic to clinic and the pricing is reflected in the quality. There are machine-made veneers that are made in bulk and there are veneers that are handmade locally by a ceramist.

AT DENTAL & SKIN CLINIC, OUR PORCELAIN VENEERS ARE HANDMADE IN MELBOURNE BY A CERAMIST.

Each of our Smile Makeovers using porcelain veneers take close to 60 hours to create from start to finish.

WHAT IS SPECIAL ABOUT OUR PORCELAIN VENEERS

HOW OUR PORCELAIN VENEERS ARE MADE

Our porcelain veneers are handmade.

WHO MAKES OUR PORCELAIN VENEERS

Our porcelain veneers are made by a team of exceptional veneer ceramists and an experienced cosmetic dentist.

WHERE OUR PORCELAIN VENEERS ARE MADE

Our porcelain veneers are made locally here in Melbourne.

WHAT IS SPECIAL ABOUT OUR PORCELAIN VENEERS

We believe dental veneers look their best when they are bespoke. We make sure every smile transformation is authentic to your own smile, but it's a better version of it. The drama is the subtlety.

IMPROVE YOUR SMILE BUT STILL FEEL LIKE
YOURSELF!

The details of each veneer are natural and life-like with a special blend of ceramic to closely mimic the details of your natural teeth. You can be assured your natural character will shine through with your beautiful new smile and improvements in alignment, shape, and colour. The details are what make us different.

THE PORCELAIN VENEER PROCESS

At Dental & Skin Clinic we have a streamlined process for our porcelain veneers. The entire process takes about 7 weeks with five distinct stages. These are the appointments to expect:

THE PORCELAIN VENEER PROCESS

1. COSMETIC CONSULTATION

During your smile consultation, you will meet with our dedicated cosmetic dentist. Our cosmetic dentist will go through a series of questions with you to best understand your smile goals and expectations and provide you with some guidance about your veneer options.

Your Smile Consultation

①

Take high-quality photos & videos

②

X-rays and a bite analysis

③

2D smile design

④

Discuss concerns & number of veneers required.

⑤

Show you your new smile digitally

THE PORCELAIN VENEER PROCESS

The dentist will then proceed with gathering further information about your smile. This may include high-quality photos, videos, x-ray and bite analysis. By the end of the consultation, our cosmetic dentist will be able to show you your new smile digitally.

This is called a Digital Smile Simulation, which allows you to preview what your new smile will potentially look like. Once you accept your new smile design and are ready to proceed with the veneers, we will move forward to the next stage, the Trial Smile.

THE PORCELAIN VENEER PROCESS

2. TRIAL SMILE APPOINTMENT

Next, you will enter your Trial Smile Stage. This stage is where you can test drive your new smile with a set of temporary veneers. This allows you to take note of anything you'd like changed, giving you the confidence that you are making the right choice. We design the temporary veneers based on your smile goals, photographs, videos, clinical analysis, bite analysis, facial features and the existing features of your own natural teeth. The design process is a well-thought-out process integrating a combination of artistry, science & engineering.

Image of the before and after of the temporary veneers, done on the same day.

THE PORCELAIN VENEER PROCESS

3. FEEDBACK APPOINTMENT

This stage allows you to take note of anything you'd like changed, giving you the confidence that you are making the right choice.

4. PERMANENT PORCELAIN VENEERS APPOINTMENT

Now the exciting appointment is where you receive your new, permanent veneers.

THE PORCELAIN VENEER PROCESS

5. AFTERCARE GUARD

The last stage includes receiving your Aftercare Guard.

We incorporate the 5 stages to ensure thoroughness and confidence in the procedure. We want you to consider us as partners in your new smile venture, and having the ability to get your feedback means we can give you the results you expect and deserve.

AFTERCARE FOR PORCELAIN VENEERS

You should treat your veneers no differently than how you would treat your own teeth. This includes sticking to these simple habits:

- Maintain excellent oral hygiene
- Don't use your teeth as tools
- Wear your Aftercare Guard to protect your teeth from night-time grinding and clenching
- Get your teeth professionally cleaned 2-3 times per year

PRICING

At Dental & Skin Clinic we offer veneer packages of 6, 8 and 10 veneers. For an indication of cost and a customised quote, call 90881118 to speak to our consultant. Alternatively, you can download our price list [here](#).

WHY OUR VENEERS COST WHAT THEY DO?

We provide the best value for money. Our prices are somewhere in the middle. We aren't the cheapest because that would mean sacrificing the quality. But we also aren't the most expensive because you're not paying for a brand.

DENTAL PAYMENT PLANS

INTEREST-FREE PAYMENT PLANS-BUY NOW, PAY LATER

We believe that veneers should be affordable and available to everyone who wants them, and we believe the no upfront payment option can help. We offer completely interest-free dental payment plans, which can mean paying up to \$231 per fortnight for up to \$12 000, all completely interest-free! Plus, we do NOT do any credit checks. We can help you choose payment plan options that fit your budget and lifestyle.

FAQ

HOW LONG DO PORCELAIN VENEERS LAST?

Porcelain veneers are expected to last approximately 15-20 years.

ARE DENTAL VENEERS PERMANENT?

Yes, dental veneers are a permanent and irreversible procedure.

HOW LONG DOES THE VENEER CONSULTATION TAKE?

We generally recommend you allow 90 minutes for the initial Veneers Consultation. We want to take our time in getting to know you, your smile goals and your smile expectations.

FAQ

HOW LONG DOES THE PORCELAIN VENEER PROCESS TAKE?

The porcelain veneer process takes a minimum of 7 weeks.

DO VENEERS RUIN YOUR TEETH?

Veneers don't ruin your teeth. Veneers protect, improve and fix your teeth. They can make brushing and oral hygiene easier and improve your bite so that it's more comfortable to chew and eat.

FAQ

WHO IS LEGIBLE FOR A DENTAL PAYMENT PLAN?

In order to be approved instantly approved for up to \$12k, you must:

- Be over 18 years old or have a guardian who can apply on your behalf
- Be an Australian citizen or Permanent Resident
- Be working (ideally permanent full-time)
- Have a current Drivers Licence
- You can nominate someone on your behalf if you don't qualify for it

IS THERE PARKING ONSITE?

We have ample parking onsite.

DISCLAIMER

A veneer is a thin layer of material placed over a tooth to improve the aesthetics of a smile/ protect the tooth surface from damage. Note: Results may vary. All treatments carry risks and benefits. Before proceeding, you should seek a second opinion from an appreciated qualified health practitioner.
